2. FUND MANAGER'S REPORT AND OUTLOOK

Fund Objective

The Cytonn High Yield Fund is a specialized Collective Investment Scheme with exposure skewed towards investment in real estate assets. The Fund aims at capital preservation while earning high returns and maintaining sufficient liquidity. The Fund aims to achieve above average returns that not only beat inflation but are also better than the yields offered by both government securities and fixed deposits.

Portfolio Strategy

The fund will largely be invested in fixed income and real estate related securities. Being a specialized Fund, the Fund can invest up to 80.0% in Real Estate funds, but to ensure sufficient diversification, no single investment should be more than 25.0% of the portfolio unless in special cases.

Economic report and outlook

According to Kenya National Bureau of Statistics (KNBS) Q2'2024 Quarterly Gross Domestic Product Report, the Kenyan economy recorded a 4.6% expansion in Q2'2024, slower than the 5.6% growth recorded in Q2'2023. The main contributor to Kenyan GDP remains to be the Agriculture, Fishing and Forestry sector which grew by 4.8% in Q2'2024, less vibrant compared to a growth of 7.8% recorded in Q2'2023. All sectors in Q2'2024, except Mining and Quarrying, and construction recorded positive growths, with varying magnitudes across activities. Most sectors recorded declining growth rates compared to Q2'2023 with Accommodation and Food Services; Financial & Insurance; and Construction Sectors recording the highest growth rate declines of 16.2%, 8.1%, and 5.6% points, respectively. The biggest gainer in terms of sectoral contribution to GDP was the Accommodation and Food Services sector, increasing by 0.3% points to 1.5% in Q2'2024 from 1.2% in Q2'2023, while the Construction sector was the biggest loser, declining by 0.4% points to 5.1% in Q2'2024, from 5.5% in Q2'2023. Real Estate was the second largest contributor to GDP at 10.3% in Q2'2024, up from 10.2% recorded in Q2'2023, indicating sustained growth. The Accommodation and Food Services sector recorded the highest growth rate in Q2'2024 growing by 26.6%, slower than the 42.8% growth recorded in Q2'2023. In our view, the economy's growth is largely pegged on how inflationary pressures in the country remains stable, and the sustainability of the strengthening of the Kenyan Shilling. We expect the reduced fuel prices to continue reducing production costs, leading to lower food prices in the country. However, growth is likely to be weighed down by increased taxation by the government thereby decreasing the purchasing power of consumers. During the month, yields on the shorter-dated Government papers were on a downward trajectory, with the 364-day, 182-day and 91-day papers yields decreasing by 2.0%, 2.4% and 1.9% to 14.2%, 13.4% and 13.1% respectively, from 16.1%, 15.8% and 15.0% recorded the previous month. Additionally, the Kenyan Shilling depreciated marginally by 0.4% against the US Dollar to close the month at Kshs 129.7, from Kshs 129.2 recorded at the end of October 2024. The November 2024 inflation rate increased marginally by 0.1% points to 2.8%, from the 2.7% recorded in October 2024. Notably, inflation has remained within the CBK target range of 2.5%-7.5% for the past seventeen months.

Portfolio Performance

The Cytonn High Yield Fund delivered an average return of 23.7% p.a. beating the inflation rate of 2.8% in the month of November to deliver positive real returns.
